The Prez Says:

Hello Turners,

What a great demo **Mark Anthony** presented on putting plugs in for decoration. It was well organized and thought out. Very inspiring. Mark I will try it soon.

Welcome to our new members that joined at the May meeting:

Tim Bryan
Jack day
Billy Tarrant
Jerry McQueen

Please make them welcome.

Our demo this month is by **Frank Penta**. I saw Frank Demo at SWAT a couple of years ago and you are in for a treat. Frank is not only a great turner and demonstrator but will keep you laughing as well. Welcome Frank. Frank will have spent Thursday and Friday teaching 16 of our members. I know they will be better turners for having attended Frank's class.

I won't be at the June meeting. We will be in Atlanta, GA taking care of our daughter and new grandson. I leave you In **Cecil Cox's** capable hands. I will be back for the July meeting.

Library Notes

Please check and see if you have any items at home. Items are to be returned at the next meeting after they are checked out, or at least after two months. Some of you have items that should have been returned some time ago. If you do, either bring them back, get a friend to bring them back or mail them to us. We will be checking records after this month's meeting and you will be getting a call if you have overdue items. Most of the items checked out have someone else waiting to see them. Everyone benefits if we all follow the rules. Thanks for your cooperation.

Stronghold Chuck For Sale – Almost new, two sets of jaws #2 Cont. 2" to 3 1/2"; Exp. 2 5/8" to 4 1/2", and a #3 jaw; cont. 3 7/8" to 5 1/4" exp. 4 1/2" to 6", an insert for a mini jet lathe or a Powermatic. \$200. John Stroud 903-236-3058

For Sale: Powermatic Model 90 Lathe and related equipment. Contact Steve Green at S6570@aol.com or (903) 489-1507.

I am building a new lathe and will need to dispose of my old home-made lathe once the new one is finished. (Probably next month) This old lathe has been my only lathe for several years. It is very heavy and will turn large pieces (18" dia). It works but is not nearly as convenient to use as a commercial lathe. I would like to give it to someone who can make use of it. The base is concrete so it will require some dedicated space. The spindle is 1" – 8 tpi.

Above is a picture with a large oak blank mounted. The small grinder mounted behind headstock does not go with it.
